E-Invoicing

E-INVOICING IMPLEMENTATION IN MALAYSIA

1

PHASE 1 (1 AUGUST 2024)

Mandatory implementation for taxpayers with an annual turnover or revenue of >RM100m

2

PHASE 2 (1 JANUARY 2025)

Mandatory implementation for taxpayers with an annual turnover or revenue between RM25m to RM100m

3

PHASE 3 (1 JULY 2025)

Mandatory implementation or all other taxpayers

SUBMISSION METHODS
MYINVOISPORTAL VS. API INTEGRATION

E-invoicing in Malaysia facilitated through MyInvoisPortal and API integration, offers different methods for businesses to manage their invoicing processes. Here's a comparison of the two submission methods:

MyInvoisPortal	API Integration
User-friendly web interface, suitable for non-technical users.	Requires technical expertise for setup and maintenance.
Manual data entry required for each invoice.	Fully automated, can handle large volumes of invoices.
Potential delays due to manual submission.	Instantaneous processing upon submission.
Potentially higher per-invoice cost due to manual handling.	Cost-effective for high volume due to automation.
Manual error correction, can be time-consuming.	Automated error handling, faster resolution.
Limited, requires manual data export/import.	Seamless integration with existing ERP/accounting systems.
Limited to portal access	Can provide role-based access and permissions

WHY CHOOSE PIXELCARE FOR YOUR E-INVOICE SUBMISSION?

Effortless Compliance

Pixelcare's e-Invoice Portal is designed to ensure your business stays fully compliant with the LHDN's e-invoice requirements. No more worries about complex regulations or submission errors.
